An Antipanic Idea

A hallway with walls covered in horizontal wood planks. On the left wall, there are two white electrical outlets. A vertical metal trim piece runs along the wall. At the end of the hallway is a door with a geometric wood panel pattern and a silver handle. The floor is a light-colored carpet. A dark semi-transparent box with white text is centered in the image.

DESIGN THAT INSPIRES

Design inspire the future.

THESIGN does not place any limits on the expressive possibilities of anyone, arising from the contamination with different places, cultures and styles.

This innovative and unique line of panic exit devices is constructed entirely out of 316 stainless steel, including all internal and external components.

This guarantees maximum functionality and a long lifetime even under the most extreme conditions. The rigorously streamlined design transmits strength and elegance and represents added value and an element of continuity.

Versatility, elegance, and efficiency in a single product.

**THE ONLY ONE ENTIRELY MANUFACTURED
IN STANLESS STEEL INOX 316.**

A person in a white shirt and tie is pointing at architectural blueprints on a table. The background is a bright, modern office with large windows. The text is overlaid on the image.

A CULTURE OF EXCELLENCE

Antipanic is a family business with deep roots and an entrepreneurial success story where experts and creatives people design extremely innovative products, which are then produced by our team of highly qualified technicians.

A stylized graphic of the Italian flag, consisting of three horizontal stripes of green, white, and red, with a brushstroke-like texture.

ITALIAN EXCELLENCE

When “Made in Italy”

is a perfect synonym for excellence and Italian pride.

This is a mission we have always pursued, because the authenticity of Italian products is our company’s strength and our way of life.

Our culture of excellence encompasses an organization geared toward quality, research, innovation, expertise, and the people who work together for the success of our projects.

All of our products are completely conceived, designed, and manufactured in Italy, which allows us to achieve an extremely high level of quality and control.
